ARS MORIENDI

The *Ars Moriendi* is a series of woodcuts created during the Black Plague to help patients learn about temptations they might face. We'll reflect on some of these temptations that we all face and learn from Jesus' death about how we can fight temptation.

Many wonderful Christian retreats and conferences are designed to be high-energy with multiple teaching sessions, break-out groups, modern music and lots of people. This retreat is the opposite. This is designed for ten people who gather at the beautiful Subiaco Abbey in the hills of Northwestern Arkansas for two nights to seek the presence of the Lord through silence and retreat.

While there is a morning seminar on the second day that will have participants reflect on Jesus' last words on the cross and communion that evening, there is no constant agenda for those who attend. Register early as space is limited!

Cost: \$220

Accommodations: Private room with private bathroom. Meals are included but participants may prefer to fast. Prayer books will be provided.
